

“UnionMigrantNet & Cities Together for Integration Project”

Mutual Learning Programmes

Agenda of the MLP

There will be a translator on site. Language used: EN -- IT

Introduction

This project was created with the intention of organizing encounters with different structures dedicated to reception and integration as well as to provide support to immigrants. Having to coordinate the various countries in which the structures are located and in light of the terrible events we are witnessing, this project will be of great help in comparing various situations, legislative differences and possibly bring exchanges that will certainly lead to an improvement of the European vision on migrant policies.

MAY 12, 2022
